

Velora

AI

MEMBER PRESENTATION

# Lease an AI trading robot.

A member portal for six-month robot leases, USD wallets, scheduled credits and a ten-level team programme.

12 ROBOT TIERS

6-MONTH TERMS

USD WALLETS

An overview of how the platform works. Read the full terms before you lease.

Conceptual artwork. Capital is at risk. Nothing here is a guaranteed return.

# Welcome to Velora AI.

Velora AI brings six-month robot leases, USD wallet records, scheduled credits and team activity into one member portal. There is currently no connected trading engine: credits are configured accounting entries, not verified trading performance.

01

## Create an account

Register and receive three wallets and your personal referral link.

02

## Top up in USD

Pay the exact USDT invoice amount at nominal 1:1 USD/USDT accounting parity.

03

## Lease a robot

Pick a tier. Cost, term and credit schedule are fixed at activation.

04

## Follow My Portal

Track credits, maturity dates, requests and your team.

### THREE WALLETS, KEPT SEPARATE

#### Available funds

Top-ups and returned lease capital. Used first for new leases and member transfers.

#### Profit wallet

Scheduled lease credits. Can be reinvested in a new lease or requested as a payout.

#### Bonus wallet

Team earnings, deposit bonuses and rank rewards. Available for payout requests.

# Meet the robot tiers.

All twelve plans share the same six-month contract. Compare the lease cost and configured monthly credit at a glance.

|                                                                                                                   |                                                                                                                  |                                                                                                                 |                                                                                                                       |

Configured lease schedule only. Daily accounting uses complete 24-hour periods on a 30-day basis; credits and capital are not guaranteed.

Capital is at risk. Figures are the current lease schedule, subject to contract. They are not verified results or guaranteed returns.

# Every plan, clearly priced.

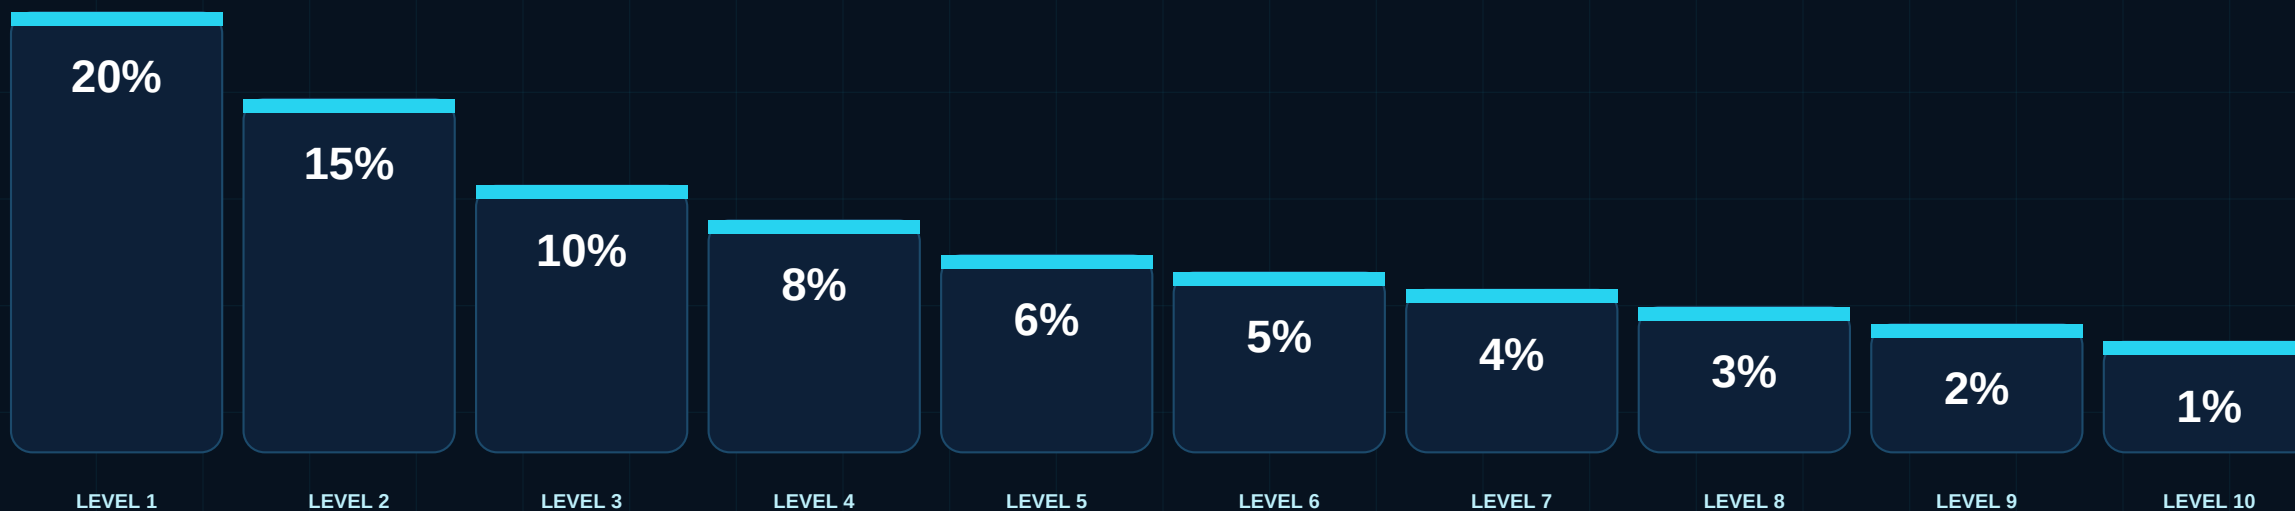

Lease cost is shown from lowest to highest. All twelve contracts run for six months.

| ROBOT     | LEASE COST | MONTHLY SCHEDULE | TERM     |
|-----------|------------|------------------|----------|
| Nano      | \$10       | \$3              | 6 months |
| Spark     | \$50       | \$15             | 6 months |
| Jnr       | \$100      | \$30             | 6 months |
| Nova      | \$175      | \$50             | 6 months |
| Pulse     | \$250      | \$75             | 6 months |
| Orbit     | \$400      | \$120            | 6 months |
| Apex      | \$600      | \$180            | 6 months |
| Titan     | \$900      | \$270            | 6 months |
| Quantum   | \$1,250    | \$375            | 6 months |
| Zenith    | \$2,000    | \$600            | 6 months |
| Atlas     | \$3,000    | \$900            | 6 months |
| Sovereign | \$5,000    | \$1,500          | 6 months |

Jnr illustration: \$100 lease cost and \$30 scheduled per 30-day period. Six such periods show \$180 in scheduled credits; the separate \$100 capital return is scheduled at maturity if enabled. These are not verified results or guaranteed returns.

# Ten levels of team earnings.

Each level percentage applies to the daily lease credits earned by a member at that depth—not to their lease purchase price. Upline bonuses are credited to the bonus wallet.

Illustrative example: one member at each of Levels 1–10 earns \$1.00/day in lease credits. The ten configured rates total \$0.74/day for the upline, or \$22.20 per 30-day period, if all ten earn that amount. Team activity and credits are not guaranteed.

# Deposit bonus, three levels.

When someone in your first three levels has a top-up approved, the applicable percentage is credited to your bonus wallet.

**10%**

**LEVEL 1**

of approved deposits

**5%**

**LEVEL 2**

of approved deposits

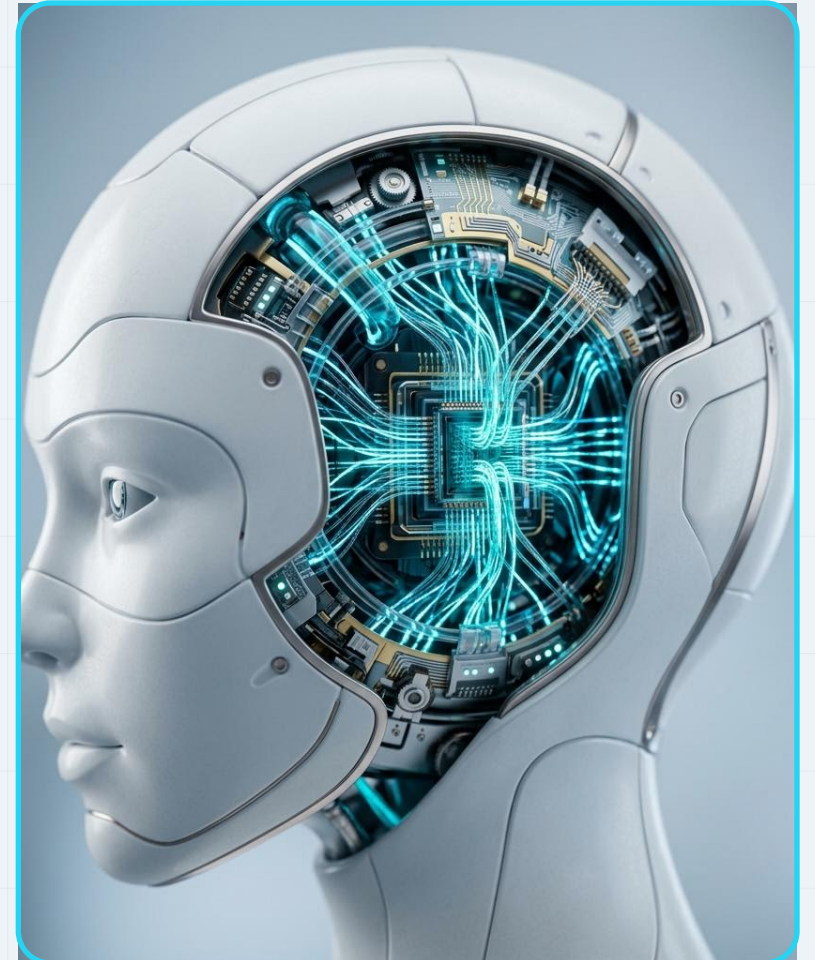

**3%**

**LEVEL 3**

of approved deposits

Example: on a \$100 approved deposit, the respective Level 1, 2 and 3 uplines receive \$10, \$5 and \$3. Approval and eligibility are required.

Registration alone earns nothing. Bonuses depend on real approved deposits and are not guaranteed income.

# Eight ranks.

Each rank needs both team volume and qualified direct leaders. A leader holds active personal leases of at least \$250. Rewards are paid once to the bonus wallet.

|                                                                                                                                  |                                                                                                                                |                                                                                                                                   |                                                                                                                                   |

# Getting started, and the risks.

- 1 Create your account at the Velora AI site.
- 2 Open My Portal and top up in USD through a USDT invoice.
- 3 Compare the twelve USD tiers; every new contract runs six months.
- 4 Activate a lease and follow its configured schedule in your ledger.

Download and share this presentation from the landing page.

## RISK, STATED PLAINLY

- Trading and investment carry substantial risk, including total loss of capital.
- No external trading engine is connected; lease credits are configured accounting, not verified trades.
- No return is guaranteed. Referral and rank rewards are not promised income.
- Only commit funds you can afford to lose and seek independent advice.
- Never share passwords, seed phrases or exchange keys with anyone.
